Programming Languages: Python, .NET, Java, Spring Boot, Angular

Database Systems: MS SQL Server, Oracle, MySQL, Postgres

Project Management Tools: Microsoft Project, JIRA, Confluence, Service Now

Education

- Advanced Certificate Program in Data Science and Artificial Intelligence, Indian Institute of Technology (IIT) Guwahati – 2025
- Master of Computer Applications from Indira Gandhi National Open University Delhi in 2005.
- Bachelor of Computer Applications from Indira Gandhi National Open University Delhi in 2005.

Profile Summary

- Dynamic and accomplished leader with over 20 years of experience in delivering strategic outcomes and leading transformative initiatives across Banking and IT Services. In recent years, I have successfully spearheaded Generative AI and Agentic AI projects, driving enterprise-wide innovation and automation for key clients. Skilled in translating emerging AI capabilities into scalable business solutions that improve operational efficiency, developer productivity, and client satisfaction.
- My leadership in AI adoption—combined with hands-on delivery management—has empowered organizations to capitalize on AI use cases such as automated reconciliation, conversational agents, CoPilot-based developer augmentation, and intelligent decision systems. A proven track record in aligning AI strategies with business goals to generate measurable ROI and strategic advantage.
- Demonstrate strong leadership abilities in managing diverse teams, delivering transformative solutions, and ensuring product consistency across all stages of the product lifecycle.
- Proven expertise in collaborating with clients and senior management to shape strategic visions, drive change, introduce innovative ideas, and implement emerging technologies, elevating enterprise system performance and productivity to new heights.
- Proficient in leveraging Agile-Scrum, Kanban, and Waterfall-Scrum Hybrid methodologies to optimize project delivery, adapt to evolving requirements, and ensure successful outcomes.
- Serving as a key delivery anchor with a proven track record in developing and architecting enterprise products, establishing company leadership in the domain, and transforming them into flagship offerings.

Career Timeline

Awards Won

- Consistently recognized with the Award of Excellence for three consecutive years at Coforge Ltd., reflecting outstanding performance and dedication.
- Honored with the Shining Star Annual Award each year from 2015 to 2019 at Genpact, acknowledging exceptional contributions and excellence.
- Received the Individual Order of Merit in 2015 for outstanding performance during the 2014-2015 period, awarded by Genpact.
- Attained Keys to Success for:
 - Recognized for excellent performance in the IT Strategy Project, awarded by CSC.
 - Recognized for outstanding performance in SLA-based support incident management, awarded by CSC.
- Recipient of the Certificate of Appreciation (COA) for exceptional client service, awarded by CSC.

Work Experience

Mar'20-Till Date | Coforge Ltd., Delhi, Delivery Manager

Growth Path:

- **Mar'20-Mar'23-Project Head**
- **Apr'23-June'24-Program Head**
- **Jul'24 -Till Date- Delivery Manager**

Key Result Areas:

- Leading enterprise-wide Generative and Agentic AI initiatives focused on automating developer workflows, client communication, and operations intelligence.
- Directing and leading multiple projects within the portfolio, ensuring the efficient delivery of critical banking projects through strategic governance, effective leadership, and oversight.
- Leading strategic collaborations with senior client stakeholders to optimize IT governance frameworks, driving the implementation of innovative solutions that enhance project governance and status reporting, resulting in recognition from the bank's CIO.
- Acting as AI adoption champion, aligning technology use cases with customer pain points and operational goals to drive scalable transformation and innovation.
- Crafting service standards, guidelines, and governance frameworks that served as benchmarks for outstanding service delivery
- Managing program revenues, costs, P&L, while identifying growth opportunities and leveraging 'add-on' sales to optimize profitability.
- Extensive experience on Reconciliation, Payment systems, Front Office and Back Office Applications.
- Driving improvements in processes, systems, workflows, and operational efficiency, while enhancing customer experience and ensuring continuous excellence.

Significant Accomplishments:

- Consistently improved processes and operational metrics by delivering key projects and driving best practices, including clear communication, transparency, identifying areas for improvement, establishing benchmarks, fostering psychological safety, and exploring innovative project implementation approaches.
- Played a key role in driving organizational AI readiness by leading internal capability building, use case identification, and customer workshops.
- Initiated and led strategic AI programs including GitHub CoPilot pilots, agentic automation frameworks, and AI-driven status reporting tools that improved delivery efficiency by 15–25%.
- Demonstrating expertise in establishing offshore-based project demand structures, governance models, and managing the full project/program lifecycle, including requirement definition, scope management, activity sequencing, effort and cost estimation, risk analysis, and quality management.
- Successfully grew revenue from ~\$1.6 million to ~\$6.7 million over a span of 3 years, driving significant business expansion and profitability.

Nov'12-Feb'20 | Genpact Headstrong Capital Market, Delhi | Sr. Principal Consultant/Sr. Project Manager

Key Result Areas:

- Delivered strategic guidance for project management, collaborated with key stakeholders, assessed reports, facilitated changes and meetings.
- Evaluated functional requirements into technical specifications, focused on business change objectives, followed escalations and change control processes, monitored progress, and traced risks.
- Leading end-to-end Project Life Cycle, involving estimation, requirement gathering, gap analysis, testing, go-live assistance, planning risk responses & contingency planning.
- Supervised technical aspects, and evaluated opportunities for automation, optimization, standardization, and globalization.
- Monitored opportunities until delivery/BAU is achieved, coordinated with team members, and utilized Lean techniques for cost optimization and efficiency gains.
